

MILAN KUMAR BAG

Software Test Engineer | QA Automation | SDET

Kolkata, West Bengal, India | 8918480883 | mbag7309@gmail.com | LinkedIn: [Paste Link] | Portfolio: [Paste Link]

PROFESSIONAL SUMMARY

Software Test Engineer with hands-on experience in Manual Testing, QA Automation, and AI-assisted test automation. Experienced in Selenium WebDriver, Java, TestNG, SQL, Playwright, JavaScript, POM, and Data-Driven Testing (DDT). Skilled in designing and executing test scenarios, validating application and database behavior, analyzing failures, and refining automation scripts. Also experienced with Git/GitHub and MERN stack development, with a focus on building reliable, maintainable, and quality-driven software.

PROFESSIONAL EXPERIENCE

QA Automation Engineer Intern | QASolve AI | Remote | Aug 2026 – Sep 2026

- Worked on AI-assisted web test automation by providing natural-language instructions to an AI tool to generate JavaScript and Playwright automation code.
- Reviewed, executed, modified, and debugged AI-generated Playwright scripts to validate application workflows and improve test reliability.
- Created and executed automated test scenarios, analyzed failures and test results, and refined generated scripts based on application behavior.
- Gained practical experience applying AI-assisted code generation to accelerate and improve modern QA automation workflows.

Software Test Engineer Intern | QSpiders – Software Testing Training Institute | Kolkata | Jan 2026 – Jul 2026

- Performed Manual Testing including functional, UI, and regression testing; designed, executed, and maintained test cases and reported defects.
- Developed and executed Selenium WebDriver automation scripts using Java and TestNG for web application testing.
- Implemented Page Object Model (POM) to create reusable and maintainable automation components.
- Applied Data-Driven Testing (DDT) to execute test scenarios with multiple sets of test data.
- Used SQL for database validation and backend data verification, and analyzed test results to support defect identification and retesting.

TECHNICAL SKILLS

Testing & QA: Manual Testing, Functional Testing, Regression Testing, UI Testing, Test Case Design, Defect Reporting, STLC

Automation: Selenium WebDriver, Playwright, TestNG, Page Object Model (POM), Data-Driven Testing (DDT), AI-Assisted Test Automation

Languages & Database: Java, JavaScript, SQL

Tools & Version Control: Git, GitHub

Web & Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB (MERN Stack)

PROJECTS

Personal Portfolio Website – Front-end portfolio website showcasing profile, technical skills, projects, and experience. [Paste Portfolio Link]

Student Performance Analysis (Academic Project) – Built a multi-user system with Admin, Teacher, and Student modules to analyze student performance using data-mining techniques.

Weather Application & Simon Says Game – Developed a weather application using external APIs and a JavaScript-based memory game using DOM events.

EDUCATION

B.Tech in Computer Science and Engineering | Hooghly Engineering & Technology College | 2023 – 2026 | CGPA: 7.6

Intermediate | Shyampur High School | 77.8%
